

Abdul Wassay

Senior Power BI Developer

Kanpur, India | +91-7897034508 | wassayknp@gmail.com | [linkedin.com/in/wassayknp](https://www.linkedin.com/in/wassayknp) | wassayknp.github.io/portfolio/

Professional Summary

Lead Power BI Developer with **8 years** of experience delivering end-to-end analytics solutions for US and global clients. Expertise in **Power BI, DAX, SQL, SSRS, Power Query, Data Modeling, Paginated Reports, and Azure Services**. Proficient in managing the full dashboard lifecycle—from requirement gathering and stakeholder management to testing and **CI/CD deployment**. Experienced in building **Star Schema** models, optimizing **complex SQL queries** and **ETL pipelines**, leading **Agile/Scrum** delivery, and ensuring robust governance through **RLS** and performance tuning.

Technical Skills

- **Power BI:** Advanced DAX, Power Query, Data Modeling, SSRS, Star Schema, RLS, Import/DirectQuery, Paginated Reports.
- **SQL & Data:** ETL Pipelines, Azure Services, Stored Procedures, CTEs, Snowflake, Oracle, SQL Server, Fabric (Dataflows).
- **DevOps & Governance:** CI/CD Pipelines, Agile/Scrum, Jira, Power BI Service, Workspace Management, Version Control (Git).
- **AI & Rapid Development:** AI-Assisted Full-Stack Web App (Copilot/Cowork), Prompt Engineering, GenAI Agents.
- **Visualization & Other:** Tableau, Spotfire, Power Automate, REST APIs, JSON, QGIS (Geospatial Analytics).

Professional Experience

Lead Power BI Developer / Senior BI Engineer

May 2021 – Present

DEFTeam Solutions Pvt. Ltd., Hyderabad, India (Client: US/Global)

- Lead end-to-end Power BI delivery using **Agile/Scrum** methodology, acting as primary client contact for requirements gathering, stakeholder management, business logic clarification, and UAT.
- Manage a small team of developers/testers, assigning tasks via **Jira** and ensuring sprint deadlines and quality standards.
- Design complex **Star Schema** data warehouse models and write advanced **DAX measures** to handle intricate business rules and KPIs, optimizing between **DirectQuery** and **Import Mode** based on dataset size and refresh requirements.
- Develop optimized **ETL pipelines** and complex SQL queries to pre-aggregate data, reducing dashboard load times by 40%.
- Implement **CI/CD pipelines** using Azure DevOps and Git for automated testing, version control, and seamless deployment.
- Administer Power BI Service including **Data Gateway** configuration, **RLS**, and manage refreshes for data security and accuracy.
- Leverage **Copilot for Power BI** and GenAI agents to automate insight summarization and rapid POC development.

Technology Analyst / BI Developer

Oct 2016 – Apr 2020

Infosys Limited, Hyderabad, India (Client: US/Global)

- Developed 200+ **Power BI** and Tableau dashboards for global clients, focusing on sales, supply chain, and financial KPIs.
- Built robust **ETL pipelines** and data warehouse models integrating multiple sources (Oracle, SQL Server) using Power Query and custom SQL connectors.
- Implemented complex calculations using **DAX** and **Tableau LODs** for accurate time-intelligence and performance reporting across **DirectQuery** and **Import Mode** datasets.
- Automated report distribution and **ETL** refresh workflows via **Power Automate**, saving 15+ hours/week of manual effort.
- Trained business users on self-service BI and **Agile** reporting features, increasing ad-hoc reporting adoption by 30%.

Projects

- **Enterprise BI & Public Sector Analytics:** Designed end-to-end **Power BI** dashboards, **Paginated Reports**, and semantic models for US public sector and transportation clients, utilizing AI for optimization.
- **Financial Reporting Automation:** Automated P&L reporting by migrating Excel workflows to **Power BI** using SQL Server stored procedures, reducing month-end effort by 50%.
- **BI & Analytics Pipeline:** Designed **ETL** pipelines integrating data from Oracle, Snowflake, and APIs. Migrated data architecture to Microsoft Fabric using **Data Gateway** and Dataflows Gen2.
- **BI Delivery & Automation:** Established CI/CD with Git and Azure DevOps, and leveraged Copilot for data exploration, improving real-time insights and reducing data requests by 35%.

Certifications

- Generative AI Foundations & Prompt Engineering — Microsoft/UpGrad — 2025
- Microsoft Power BI – The Complete Masterclass — Udemy — 2024
- TIBCO Certified Professional: Spotfire — TIBCO — 2022

Education

Bachelor of Technology (B.Tech.) in Computer Science & Engineering

Jul 2012 – May 2016

Dr. APJ Abdul Kalam Technical University (formerly Uttar Pradesh Technical University), India

Degree Equivalent: Bachelor of Science (B.S.) in Computer and Information Science
