

Abdul Wassay

Lead BI & Analytics Specialist

Hyderabad, India | +91-7897034508 | wassayknp@gmail.com | linkedin.com/in/wassayknp | wassayknp.github.io/portfolio/

Professional Summary

Lead BI & Analytics Specialist with 8+ years of experience in business intelligence, data analytics, and enterprise reporting. Expertise across Power BI, Tableau, SQL, DAX, Power Query, Snowflake, and Microsoft Fabric, delivering scalable, multi-platform analytics solutions for global clients. Strong experience in client-facing requirement discussions, stakeholder management, and end-to-end BI delivery. Applied AI prompt engineering and Copilot features to automate insight summarization and improve reporting efficiency, with a proven ability to optimize Power Query-based data transformation and reporting workflows using agile methodology.

Skills

- **BI & Visualization:** Power BI (DAX, Power Query, Service), Tableau, Spotfire, Dashboard Design, KPI & Reporting
- **Data & Analytics:** SQL (Oracle, SQL Server), Snowflake, Data Modeling, Semantic Model, Fabric (Reporting & Analytics)
- **Automation & Governance:** AI Prompt, Copilot-assisted Analytics, Python, Git, CI/CD Pipelines, RLS, Security
- **ETL & Integration:** IBM DataStage, Microsoft Fabric / Data Factory (Data Engineering), APIs, JSON
- **Geospatial Analytics:** Integrated geospatial data (QGIS, Custom Maps, Geospatial Analysis) in Power BI and Spotfire

Experience

Lead BI Developer / Senior Software Engineer BI

May 2021 – Present

DEFTeam Solutions Pvt. Ltd., Hyderabad, India

- Own end-to-end Power BI analytics delivery, designing and deploying dashboards across multi domain business teams.
- Conducted direct client interactions for requirement gathering, KPI expectation management, and dashboard walkthroughs.
- Collaborated with Business Analysts to translate client discussions into SRDs, wireframes, and Power BI mockups.
- Built and supported data integration workflows using Fabric, sourcing data from Oracle, Snowflake, REST APIs, and JSON.
- Optimized SQL queries and migrated legacy Oracle logic to Snowflake, reducing data processing time by 30%.
- Applied AI prompt and Copilot to automate insight summarization and reporting workflows, reducing manual effort by 25%.
- Administered Power BI Service, implementing Row-Level Security (RLS), performance tuning, and data governance.

Technology Analyst / Senior Systems Engineer

Oct 2016 – Apr 2020

Infosys Limited, Hyderabad, India

- Developed and maintained 200+ Power BI and Spotfire dashboards for global clients, improving decision-making by 10%.
- Designed and implemented ETL using Power BI and Datastage, integrating data from databases, APIs, and JSON.
- Wrote complex SQL queries, views, and stored procedures to support ad-hoc reporting and analytics.
- Automated report refresh and distribution using Power Automate, saving 15+ hours per week.
- Trained business users and junior team members on Power BI and Spotfire, increasing self-service BI adoption.

Projects

Business Intelligence Solutions

- Developed public, operational, geospatial, and financial dashboards in Power BI. Leveraged Copilot to enhance data exploration and reporting capabilities, resulting in improved real-time insights and a 35% reduction in data access requests.

BI & Analytics Pipeline

- Developed end-to-end ETL and Power BI solutions, extracting and combining data from multiple sources (Oracle, Snowflake, APIs, SharePoint, JSON) using tools like DataStage and migrating/developing new pipelines in Fabric.

Certifications

- AI Prompt Engineering — UpGrad — 2025
- Microsoft Power BI – The Complete Masterclass — Udemy — 2024
- TIBCO Certified Professional: Spotfire — TIBCO — 2022
- Microsoft Fabric Certification (Data Factory, Data Engineering) — Udemy (In Progress)

Education

Bachelor of Technology (B.Tech.) in Computer Science & Engineering

Jul 2012 – May 2016

Dr. APJ Abdul Kalam Technical University (Uttar Pradesh Technical University), India
