

Abdul Wassay

Lead Power BI Developer & BI Specialist

Hyderabad, India | +91-7897034508 | wassayknp@gmail.com | linkedin.com/in/wassayknp | wassayknp.github.io/portfolio/

Professional Summary

Lead Power BI Developer & BI Specialist with **8+ years** of experience delivering end-to-end analytics solutions for US and global clients. Expertise in managing the full dashboard lifecycle—from **client requirement gathering** and business logic clarification to development, testing, and **CI/CD deployment**. Proficient in building **Star Schema models**, writing advanced **DAX measures**, and optimizing **complex SQL queries** to reduce data latency by up to 40%. Experienced in leading small teams via **Jira**, leveraging **GenAI/Copilot** for rapid prototyping, and ensuring robust governance through **RLS**.

Technical Skills

- **Power BI Expert:** Advanced DAX, Power Query (M), Star Schema, Composite Models, RLS.
- **SQL & Data Engineering:** Stored Procedures, CTEs, Snowflake, Oracle, SQL Server, Fabric (Dataflows Gen2).
- **DevOps & Governance:** CI/CD Pipelines (Git), Jira, Power BI Service, Workspace Management, Version Control.
- **AI & Rapid Development:** AI-Assisted Full-Stack Web App (Copilot/Cowork), Prompt Engineering
- **Visualization & Other:** Tableau, Spotfire, Power Automate, REST APIs, JSON, QGIS (Geospatial Analytics).

Professional Experience

Lead Power BI Developer / Senior BI Engineer

May 2021 – Present

DEFTeam Solutions Pvt. Ltd., Hyderabad, India (Client: US/Global)

- Lead end-to-end Power BI delivery, acting as primary client contact for requirements, business logic clarification, and UAT.
- Manage a small team of developers/testers, assigning tasks via **Jira** and ensuring sprint deadlines and quality standards.
- Design complex **Star Schema models** and write advanced **DAX measures** to handle intricate business rules and KPIs.
- Develop optimized **complex SQL queries** to pre-aggregate data, reducing dashboard load times by 40%.
- Implement **CI/CD pipelines** using Azure DevOps and Git for automated testing, version control, and seamless deployment.
- Administer Power BI Service, configuring **RLS** and monitoring gateway refreshes for data security and accuracy.
- Leverage **Copilot for Power BI** and GenAI agents to automate insight summarization and rapid POC development.

Technology Analyst / BI Developer

Oct 2016 – Apr 2020

Infosys Limited, Hyderabad, India

- Developed 200+ Power BI/Tableau dashboards for global clients, focusing on sales, supply chain, and financial KPIs.
- Built robust data models integrating multiple sources (Oracle, SQL Server) using Power Query and custom SQL connectors.
- Implemented complex calculations using **DAX** and **Tableau LODs** for accurate time-intelligence and performance reporting.
- Automated report distribution via **Power Automate**, saving 15+ hours/week of manual effort.
- Trained business users on self-service BI features, increasing ad-hoc reporting adoption by 30%.

Projects

Business Intelligence Solutions

- Developed public, operational, geospatial, and financial dashboards in Power BI. Leveraged Copilot to enhance data exploration and reporting capabilities, resulting in improved real-time insights and a 35% reduction in data access requests.

BI & Analytics Pipeline

- Developed end-to-end ETL and Power BI solutions, extracting and combining data from multiple sources (Oracle, Snowflake, APIs, SharePoint, JSON) using tools like DataStage and migrating/developing new pipelines in Fabric.

Certifications

- AI Prompt Engineering — UpGrad — 2025
- Microsoft Power BI – The Complete Masterclass — Udemy — 2024
- TIBCO Certified Professional: Spotfire — TIBCO — 2022
- Microsoft Fabric Certification (Data Factory, Data Engineering) — Udemy (In Progress)

Education

B.Tech. in Computer Science & Engineering

Jul 2012 – May 2016

Dr. APJ Abdul Kalam Technical University, India
